"2001: A Space Odyssey" is in many respects a silent film. There are few conversations that could not be handled with title cards. Much of the dialogue exists only to show people talking to one another, without much regard to content (this is true of the conference on the space station).

2001: A Space Odyssey movie review (1968) | Roger Ebert

The book goes hand in hand with the 2001 space odyssey movie. It entails the nature between man and the unknown while giving life to the universe around the main cast of characters. This book also shows a realistic interpretation of how AI and man react to each other.

But when he released 2001: A Space Odyssey, it just was different. Hollywood knew downer endings and ambiguous plot points, but for one of the first times ever, a mainstream movie asked an audience to chose an ending based on their own belief system. It was deep, inspirational, and caused a lot of people to hate Stanley Kubrick.
