& Teaching Resources ...~~

Force and Motion. Force and motion are fundamental to all matter in the universe and are integral parts of our daily lives. A force is a push or a pull on an object that is caused by an interaction with another object. Forces influence objects that are at rest or that are already in motion. Isaac Newton's three laws of motion describe how forces interact with objects to influence motion.

## ~~Fifth Grade Unit on Work, Force and Motion~~

5th Grade – Unit 5. In this unit, we will learn about forces – a push or a pull on an object – and how forces can cause an object to move, change direction or speed, or stop. We will be exploring the scientific laws that describe the motion of objects and conducting experiments to predict and demonstrate the motion of objects.
