10 percent of 784 is the same as 10 per hundred of 784. We can therefore make the following equation:  $10/100 = X/784$  To solve the equation above for X, you first switch the sides to get the X on the left side, then you multiply each side by 784, and then finally divide the numerator by the denominator on the right side to get the answer.
