### Selection Guide

ABB's softstarters increase a motor's lifetime by protecting it from electrical stresses. They do so by letting you optimize starting currents that with conventional starting methods put lots of stress on the motor. With many built-in motor protection features, your motor is safe in its hands.

#### Softstarters | ABB

Based on the input data and the calculation, a number of ABB softstarters will be presented, representing the optimal selection within the ABB softstarter range. You will find the selection of PSR, PSS, PSE, PST and PSTB for inline connection with motor and for PSS, PST and PSTB for inside delta connection.
