objects – in your IT environment. Before you can implement Active Directory, you have to do some planning.

Active Directory For Dummies Cheat Sheet – dummies

In order to setup active directory we need to log in as local administrator. First thing to check is IP address configuration. 1) Once Active directory setup on the server, it also going to act as DNS server. There for change the DNS settings in network interface and set the server IP address (or local host IP 127.0.0.1) as the primary DNS server.

Step-by-Step guide to setup Active Directory on Windows ...

In this chapter, we will see how to Install Active Directory in Windows Server 2012 R2. Many of us who have worked with the previous version run DCPROMO.EXE to install it, but in the 2012 version, it is recommended by Microsoft not to use it anymore. To continue with Installation follow the steps given below.
