[Books] Adhd Parent Support Group Westlake Chadd
ADHD, or attention deficit hyperactivity disorder, to
give it its full name, is a common condition amongst
young children. The behavioural disorder causes
symptoms including difficulty paying attention,
hyperactivity and impulsiveness, and is usually
detected between the ages of six and 12 - many
children are diagnosed soon after starting school, as
their difficulties become more evident.

Support for Parents. Few people understand what it means to be a parent of an ADHD child unless they are one or are emotionally close to one. For this reason finding some type of support group, even if it is simply a couple of moms meeting regularly over coffee, can be very beneficial. Not only are the shared experiences and parenting tips helpful, the stress relief can be a valuable lifesaver ...
