African Worlds. Studies in the cosmological ideas and social values of African peoples Daryll Forde (ed.) With a new introduction by Wendy James This volume, first published in 1954, consists of nine studies, each describing the world outlook of an African people as expressed in their myths of creation, traditions of origin, and religious beliefs. The studies are concerned with such widely divergent systems of thought as the complex metaphysical system of the Dogon of French West Africa, the ...

~~African Worlds Studies In Cosmological Ideas And Social---~~
Africa was, and still is, rich in cosmological ideas. Though the diversity of Africa's religious and cosmological heritage has been little known outside of the continent, the intensive researchers of Africanists around the world, and the growing global interest in the African world have combined to draw attention to what could be Africa's spiritual gift to
