Nov. 13, 2020 - The new AISC Code of Standard Practice for Structural Stainless Steel Buildings (AISC 313) is available for its second public review through December 11, 2020. This new standard sets forth criteria for the trade practices involved in the design, purchase, fabrication, and erection of structural stainless steel buildings.

Design Guide 29, Vertical Bracing Connections--Analysis and Design, provides guidance for the design of vertical brace connections. The guide includes an overview of the design philosophy of common bracing systems based on structural principles. Using the lower bound theorem of limit analysis and the uniform force method, the guide addresses ...
