press brake whose lower beam is hydraulically raised by the linear servo valves at the right and left sides. The UP and DOWN foot pedals are pressed to move up and down the lower beam. The punches are mounted in the punch holders attached to the upper beam, and the dies and die holders are mounted on the lower beam.

*OPERATOR'S MANUAL - Used
AMADA*

AMADA offers a wide range of down-acting precision press brakes. The eco-friendly HD NT Series is an electric/hydraulic, down-acting system that delivers superior accuracy. This high-performance series features a Hybrid Drive system that is engineered for low energy consumption and requires less hydraulic fluid than conventional machines.

*Can anybody help with a
manual for an older Amada
RG50 ...*

Premium brands of press
brakes are often considered
to be Accurpress, Amada,
Bystronic, Cincinnati, and
Pacific Press Technologies.
These machines have a long
and reputable history, so
often buyers feel more
comfortable purchasing these
brands of press brakes. Due
to this, these do come at a
higher cost but often
customers are okay paying
this premium for the comfort
of a well known brand ...

1080 the other day and I could not get the ram to actuate at all. I finally took a closer look and could see that the foot control uses its own separate hydraulic system much like brakes on a car or bicycle. My guess was that there was insufficient hydraulic fluid or air in the line. It turns out I was right, but what I didn't expect is that the hydraulic reservoir for ...
