An International Journal Of Optimization

International Journal of Modeling and Optimization (IJMO) is an international academic open access journal which gains a foothold in Singapore, Asia and opens to the world. It aims to promote the integration of modeling and optimization. The focus is to publish papers on state-of-the-art modeling and optimization. Submitted papers will be reviewed by technical committees of the Journal and Association.

International Journal of Modeling and Optimization

The aim of International Journal of Applied Optimization Studies (IJAOS) is to publish original and high-quality research that contributes Industrial Engineering and Management. IJAOS's main emphasis is on the quantitative improvement analysis of systems in the production and service scopes. IJAOS is open access, free of charge publication, and uses a blind peer review.

International Journal of Computing and Optimization is publishing research papers and reviews in the area of mathematical programming, classical optimization, meta-heuristics optimization and modern optimization, artificial intelligence, soft computing and computational intelligence, algorithms and theory, distributed and parallel computing, scientific computing, simulation, software engineering, real world applications, etc.

International Journal of Computing and Optimization

The International Journal of Industrial Optimization (IJIO) is an international journal published by Universitas Ahmad Dahlan located in Indonesia. This is an open-access and peer-reviewed journal which will be published twice a year (2 issues/year) in February and September. The first volume of IJIO

A Journal of Mathematical Programming and Operations Research 2019 Impact Factor 1.520

Optimization publishes on the latest developments in theory and methods in the areas of mathematical programming and optimization techniques.

Optimization: Vol 69, No 11

This journal shares the research carried out through different disciplines in regards to optimization, control and their applications. The basic fields of this journal are linear, nonlinear, stochastic, parametric, discrete and dynamic programming; heuristic algorithms in optimization, control theory, game theory and their applications.

IJOCTA Homepage

The Journal of Optimization Theory and Applications publishes carefully selected papers covering mathematical optimization techniques and their applications to science and engineering. An applications paper should be as much about the application of an optimization technique as it is about the solution of a particular problem.
