Chapter 3: Anatomy and Physiology. STUDY. Flashcards. Learn. Write. Spell. Test. PLAY. Match. Gravity. ... Prep. Key Concepts: Terms in this set (100) Which area of science involves the study of the organs and systems of the body: Anatomy. What three basic parts of cells are found in all human cells: ... Help. Sign up. Help Center. Honor Code ...

Chapter 3: Anatomy and Physiology Flashcards | Quizlet

Physiology: The study of the functions of the human body; Gross anatomy: The study of the parts and structures of the human body that can be seen with the naked eye and without the use of a microscope; Microscopic anatomy: The study of the parts and structures of the human body that can NOT be seen with the naked eye and only seen with the use of a microscope

General Anatomy and Physiology of a Human: TEAS ...

The units of our Anatomy and Physiology textbook adhere to the scope and sequence followed by most two-semester courses nationwide. Unit 1: Levels of Organization. Chapters 1 – 4 provide students with a basic understanding of human anatomy and physiology, including its language, the levels of organization, and the basics of chemistry and cell biology.

Preface – Anatomy and Physiology

The anatomy of the external genital area, the vulva, of an adult woman is shown in Figure 2.2. There are two folds of skin (labia – lips) on each side. The labia majora contain fatty tissue and they are covered by hair. They help to keep the vaginal introitus (entrance) closed, which assists in the prevention of infection.
