Anes Feeling Thermometers - [logisticsweek.com](http://logisticsweek.com)

Feeling thermometers enable respondents to express their attitudes about a person, group, or issue by applying a numeric rating of their feelings toward that person, group, or issue to an imaginary scale. Using a feeling thermometer, respondents express their feelings in terms of degrees, with their attitudes corresponding to temperatures.

Home - ANES | American National Election Studies

The out party feeling thermometer ratings in 2016 (25.99) and 2012 (27.31) are noticeably lower than those recorded in 1988 (45.54). Interestingly, the 2016 campaign—arguably the most divisive in recent history—resulted not only in increased hostility for the out party, but at least in the case of the Democrats, also in less enthusiasm for the in party.

### SOKIE LIKE IT HOT - JSTOR Home

In the study that examined the feeling thermometer questions from the 1972 American National Election Studies (ANES), Wilcox, Sigelman, and Cook (1989) find that respondents provide systematically different ratings to the feeling thermometers based not only on their actual evaluations of various social groups but also on other factors. For example, women, non-white, and less-

### DATA SOURCES AND KEY VARIABLE DESCRIPTIONS A.

Asking respondents to answer a series of attitudinal measures (e.g., feeling thermometers) may also affect interest responses because of differences in felt confidence when answering. Respondents differ in the confidence with which they answer political survey measures ( Atkeson & Rapoport, 2003 ; Mondak & Anderson, 2004 ).

The feeling thermometer is one of the longest continuous time series studies in which Americans are asked about their attitudes toward Jews, and there are items on the ANES surveys that can be used to partially correct for social desirability response effects. The analysis compares several demographic groups, an important focus of extant research.
