## ~~Planet A Field Guide~~

At once thrilling and meditative, it takes apocalyptic ideas out of comfortable abstraction and turns them into lives experience. The chapter on walking for days through a cornfield should be required reading in schools.

## ~~Apocalyptic Planet: Field Guide to the Future of the Earth ...~~

Apocalyptic Planet is Childs's attempt to visit landscapes of apocalypse; they can be ancient ice-fields, they can be lands slowly being lost to a rising sea, and they can also

The underlying thesis of Apocalyptic Planet

## Access Free Apocalyptic Planet A Field Guide To The Future Of The Earth

is that the world has ended many times—mass extinctions, climate change, Ice Ages and major volcanic eruptions have all done their bit—but something always survives until the environment ameliorates. Subtitled a field guide, this book is a series of reports of ‘field meetings’ by Childs to such severe environments, now commonly limited geographically, but still locally extreme.

~~Apocalyptic Planet : NPR~~

Apocalyptic Planet: Field Guide to the Ever-Ending Earth (2012) is a nonfiction book about science, the environment, and the constantly ending world. From Chile to Iowa to the Bering Sea, science writer Craig Childs travels the world to uncover the unstable nature of the planet.

~~Apocalyptic Planet Summary | SuperSummary~~

## Access Free Apocalyptic Planet A Field Guide To The Future Of The Earth

Field Guide to the Everending Earth. I believe the earth will survive us. It has survived far worse than us. Its 3.5-billion-year life history is a gauntlet of apocalypses. In every ancient crater and dinosaur fossil bed, you see a story of global endings. Whether we survive ourselves is more the question.

violently the earth can change—this is a very good book to read as we start to watch global warming provide a new shock on this scale.”

~~Apocalyptic Planet: Field Guide to the Future of the Earth ...~~

Our planet gets up to no end of apocalyptic-like tricks over time---periods when it is nearly all ice, all melting ice, all desert, all sea water, all molten lava, and civilizations come and go, sometimes for geological or climate reasons.
