Authority

police force, etc 3. a position that commands such a power or right (often in the phrase in authority)

~~Authority — definition of authority by The Free Dictionary~~

In the fields of sociology and political science, authority is the legitimate power that a person or a group of persons consensually possess and practice over other people. In a civil state, authority is made formal by way of a judicial branch and an executive branch of hippo people government.

"Website authority" is an SEO concept that refers to the "strength" of a given domain. Some people call this "domain authority," which is not to be confused with the Domain Authority (DA) metric from Moz. When we talk about domain authority, we're talking about a general SEO concept that's synonymous with "website authority".
