Those who are about to write a research paper on the topic have to know that air suspension was introduced on Cadillac Eldorado Brougham model year 1957. The system was then offered as an option on several other American car brands in the late 1950s, but reliability problems meant that the system quickly disappeared again.

Component Of the Air Suspension
. Air bags are simply a rubber
bladder that holds air. Air bags
are also raised to as air springs or
bellows. The air bags are
detected between the frame of
the vehicle and the vehicle axles.
Air bags are rated for weight and
pressure capacities. At the very
least, there will be one air bags
