Better fuel efficiency – Overall, manual transmission engines are less complex, weigh less, and have more gears than automatics. The end result is that you'll end up getting more kilometres out of the petrol you pump in than you would with an automatic. Manual transmissions have been known to save drivers between 5% and 15% on their fuel costs.

Automatic Vs Manual

An automated manual transmission operates differently from a pure automatic transmission. Automated manual transmissions utilize a manual gearbox, with the clutch and gearshifts controlled by an electronic system. A traditional automatic uses planetary gearing with disc packs and torque converters.
