research question and hypothesis, (2) develop and implement a research plan, (3) perform data collection and analysis, and (4) present a research report. Each of these steps is critical for scientific inquiry and discourse.

Principles of Clinical Research

All of those involved in MRC-funded research should be honest in respect of their own actions and their responses to the actions of others. The research community must foster and support a culture of transparency and honesty which promotes good practice, recognises relevant interests or conflicts and deals with these openly and explicitly.
