Martian rocks that could contain signs of life have been collected by  
NASA's Perseverance rover. The ancient samples were altered by  
water that flowed over the Red Planet when it was a water world.

## *Perseverance Rover Finds Rocks Shaped By Water on Mars*

[Tanguy] is using the drivetrain from a pair of hoverboards to build a beefy little rover platform with independent suspension. Since hoverboards were designed to move around fully grown humans ...
