Handbook of the Mamnals of the World - Wikipedia

As a voracious reader, I consumed everything in the house, from huge dictionaries to adult non-fiction history, but these 2 volumes were my favorite "book." The Book of Mammals has high-quality full-color photographs (worth it for the "cute" but vicious Tazmanian devil alone!) and information on each mammal such as its habitat, range, size ...

National Geographic: Book of Mammals, Vol. 1, A - J ...

Evolution of Tertiary Mammals of North America: Volume 1, Terrestrial Carnivores, Ungulates, and Ungulate like Mammals Christine M. Janis , Kathleen M. Scott , Louis L. Jacobs This book is a unique compendium and synthesis of the cumulative knowledge of more than 100 years of discovery and study of North American tertiary mammals.

Handbook of Mammals of the World, Vol. 1: Carnivores ...

A milestone in the natural history of the subcontinent-an indispensable, detailed source of information of value to everyone interested in mammals, whether layperson or scientist. With rigour and objectivity the book covers all 574 species in the region, many of them in detail and depth, based on consummate research conducted during the past half-century.

Mammals of South Asia-Volume One on Apple Books

Unlike Marine Mammals of the World, this book does not include the sea otters or the polar bear or sea mink, since they are already feature in Volume 1 (Carnivores). Amazingly, the Araguaian River Dolphin was described just in time for inclusion in this book, and the division of the finless porpoise into two species is accepted.

Handbook of the Mammals of the World: Sea Mammals Vol. 4 ...

More than 10 years in the making, Mammals of Africa contains the very latest information and detailed discussion of the morphology, distribution, biology and evolution (including reference to fossil and molecular data) of every currently recognized species of African land mammal. Volume I: Introductory Chapters and Afrotheria comprises eight introductory chapters covering topics such as evolution, geography and geology, biotic zones, classification, behaviour and morphology. The rest of this ...
