Within the last years, empirically based knowledge concerning the psychopathology, etiopathogenesis,

and treatment of BPD have significantly improved. Today most researchers postulate pervasive affective dysregulation at the core of borderline symptomatology and see it as the consequence of an interplay between genetic vulnerability, sociobiographic experience, and dysfunctional behavior.

Borderline Psychopathology and Its Treatment. - Marvin ...

Borderline Psychopathology and its Treatment Gives as much weight to the patient's reports of his subjective experience as to his behavior in the transference. What the patient feels - his "inner emptiness," his "aloneness" were the spur and the foundation for the theoretical formulations. (417 pp.)

Borderline Psychopathology and its Treatment - IPI eBooks

Therefore, psychological therapy is necessary and important in the whole treatment of borderline personality disorder. The non-adaptive behaviors associated with borderline personality disorder are effective in the short term for the relief of discomfort, but not in the long term. In this regard, drugs can complement any form of psychotherapy ...

Borderline Psychopathology and Its Treatment by Adler ...

Under the impact of new clinical experiences and empirical research in the last twenty years, the psychodynamic psychotherapy for borderline patients has evolved into a more exploratory, expressive direction. The supportive psychotherapy approaches that were formerly recommended as treatment of choice have been losing their appeal.

The Psychotherapeutic Treatment of Borderline Patients ...

It also serves as a model for psychotherapy research in general. Dialectic behavior therapy, a specific cognitive behavior therapy, has proven effective, and constitutes a major practical approach to the treatment of borderline patients, perhaps particularly those with prevalent suicidal and parasuicidal symptoms and affect dysregulation.
