THE TECHNIQUE OF MATHEMATICAL MODELLING Lecture 03 Computer Fundamental Part 2 Power Series Solutions of Differential Equations EE 306 MOS NotesPart3 Free webinar with Carol Ptak Braun Differential Equations 4th Edition

This fourth edition incorporates earlier introductory material on bifurcation theory and adds a new chapter on Sturm-Liouville boundary value problems. Computer programs in C, Pascal, and Fortran are presented throughout the text to show readers how to apply differential equations towards quantitative problems. Seller Inventory # LHB9780387978949

Condition: New. 1992. 4th. Hardcover. Suitable for undergraduate students, this book provides an introduction to differential equations. Highlights include material on bifurcation theory, Sturm-Liouville boundary value problems and computer programs in C, Pascal and Fortran. Series: Texts in Applied Mathematics. Num Pages: 578 pages, biography.

Differential Equations and Their Applications by Martin Braun

There are two major changes in the Fourth Edition of Differential Equations and Their Applications. The first concerns the computer programs in this text. In keeping with recent trends in computer science, we have replaced all the APL programs with Pascal and C programs. The Pascal programs appear in the text in place of the APL programs, where they are followed by the Fortran programs, while the C programs appear in Appendix C.
