Pontemgap - bridging the communication gap

Bridging the Communication Gap. Design Thinking is a human-centered approach a combination of a scientific method and an artistic process. We use it because we think that most of the communication and marketing problems are solved by keeping the human factor at the forefront (customer, employee, partner, team, etc.).

Netspot USA | Bridging the communication gap

A language gap prevents staff dispersed across global offices or on the frontlines from communicating efficiently. Procedures, practices, and role requirements are often presented in only a few languages. Misunderstandings in job expectancies can lead to a loss in productivity, lowered efficiency, and higher turnover rates.
