BS ISO 6588-1 : Paper, board and pulps - Determination of ...

This document specifies a method for the determination of the pH-value defined by the electrolytes extractable by cold water from a sample of paper, board or pulp. This document is applicable to all types of paper, board and pulp.

ISO - ISO 6588-1:2020 - Paper, board and pulps ...

ISO 6588-1:2012 is applicable to all types of paper, board and pulp. As the quantity of extractable ionic material approaches zero, as in the case of highly purified pulps, the precision of the method becomes poor because of the difficulties encountered in making pH measurements on water containing little electrolytic material.
