I was drawn to this really because my father served in the army alongside the Gurkhas. John Masters has a very easy-going style and a good eye for interesting little details. The place and the people spring to life and this story seems to be a candid snap-shot of life in the British army in a corner of the empire towards the end of the empire.

Bugles and a Tiger: My Life in the Gurkhas by John Masters

BUGLES AND A TIGER is a matchless evocation of the British Army in India on the eve of the Second World War. Still very much the army depicted by Kipling, it stands on the threshold of a war that will transform the world.

Bugles and a Tiger by John Masters - AbeBooks

Just don't expect everybody to abstain forever from having sex, because, as John Masters points out in Bugles and a Tiger, My life in the Gurkhas, that is not going to happen. The author does, briefly, mention the independence movement in India at that time in the run-up to World War II, but the impression I get is that it barely impinged on life in the military, and, by extension, on the general population of India.
