Building Drawing – Civil Engineering Notes

Second Year Civil Engineering Sanjay Ghodawat Polytechnic, Atigre 1 Subject: Building Drawing (17309) INTRODUCTION Drawing is the language of engineers. An engineer must be well conversant with drawings. Drawings represent reduced shape of structure and the owner will be able to see what is going to happen.

Subject- Building Drawing (17309)

This drawing gives the information of horizontal dimensions of the building, thickness of walls, clear spaces inside the building and column locations. it also shows the openings required in the building such as doors, windows and ventilators. 1.3 Section Drawings

Types of Drawings used in Building Construction

Building Construction - Civil Engineering Lectures Course Notes Construction Construction is the process of constructing a building or infrastructure. Construction differs from manufacturing in that manufacturing typically involves mass production of similar items without a designated purchaser, while construction typically takes place on location for a known client.

Building Construction & Design – Civil Engineering –

This type of drawing provides complete view of a building. It demonstrates the location of building and all building parts where they will be placed. There are different types of architectural drawings with different names such as plan, elevation, section etc. 2 Structural Drawing:

Types Of Drawings Used In Building Construction – Daily Civil

General building design procedure: Step 1: Plan the approximate layout of the building. Step 2: Calculate dead and snow load. Step 3: Design steelroof decks. Step 4: Select owsj's. Step 5: Design beam. Step 6: Design column. Step 7: Design steel column bore plates. Step 8: Design footing Step 9: Create engineering drawing.

10 Steps for Building Design – Civil Engineering

These will need to be in what's known as a CAD format, in order to be used during the design, planning, and building regulations stages. If you don't have CAD drawings of your home, then a measured survey will need to be carried out. This vital step will involve surveyors visiting your property to record the existing measurements of your home.
