Cane Toads: An Unnatural History - AP Environment Science ...

Mark Lewis (Cane Toads: An Unnatural History) explores one of Australia ' s greatest environmental catastrophes as he follows the unstoppable march of the cane toad across the Australian continent. Despised by many, venerated by some, the toad has occupied a nation ' s consciousness achieving both cult and criminal status.

Cane Toads: An Unnatural History (1988) - News - IMDb

Cane Toads is an unbelievable environmental disaster that occurred earlier in the 20th century. I purchased this tape for my students in the advanced environmental science course that I teach because it is a true documentary and it is also very entertaining in a dark sort of way. It is a perfect example of the impact humans have on their environment when they introduce exotic species into an ...
