CANON SUPER G3 SERVICE MANUAL Pdf Download | ManualsLib Canon fax machines manufactured since 2003 use a

fax-image compression type named "Super G3." Essentially, super G3 allows for fax transmissions to be compressed while being transmitted allowing for faster speed while faxing. This increased speed engages the phone line for a shorter period of

time, which lowers the expense of faxing; when you send a fax from a business line designated as a fax line, the longer the line is engaged, the more expensive it is.
