The Needed Complement is determined by a combination of: a) the number of units ordered into production; and b) the Automation level of the assembly lines. Decreasing the number of units produced from one year to the next will decrease the Needed Complement. Similarly, increases in Automation will decrease the Needed Complement.

COMPXM answers 2020. COMPXM is an exam that is done after completing capsim competition rounds. It has two sections, i.e., decision making and board query question. There is no defined way for decision making in comp-xm. However, you need to understand your competitors' strategies. You must also be very careful when making decisions concerning forecasting, research, and development as well as marketing and promotion.

Essay questions have a default point value. When grading, professors assign a percentage to each response. For example, if a participant answers an essay question worth 50 points and the professor awards 50%, the participant would receive 50% of 50 points or 25 points. Essay questions are not part of the Capsim default question sets.
