1 Chapter 11 The Dynamic Planet • The Geologic Time Scale is a summary timeline of all Earth history
o Eons: vast slices of time
o Eras
o Periods
o Epoch • Relative vs. absolute time
o Relative: what happened in what order (sequence of events)
o Absolute: actual number of years before the present time • 6 major biological extinction events
o 440 m.y.a (million years ago)
o 370 m.y.a
o ...

Phanerozoic (meaning "visible life"), is the time that we are most familiar with because Phanerozoic rocks are the most common on Earth, and they contain evidence of the life forms that we are all somewhat familiar with.

8.1 The Geological Time Scale | Physical Geology

Chapter 8 - Geologic Time Geologic Time opens with a brief history of geology from James Ussher to James Hutton and Sir Charles Lyell. The chapter continues with a discussion of the fundamental principles of relative dating: law of superposition, principle of original horizontality, principle of cross-cutting relationships, and the uses of inclusions and unconformities.

Chapter 8

The correct answer for each question is indicated by a . Time is on your side. Use the practice exam on Geologic Time (Chapter 8) to test your expertise regarding concepts of deep time. 1. "Geological processes operating at the present time are the same processes that have operated in the past" is a statement of:

Multiple Choice Quiz

Geology - Chapter 8: Geologic Time / Geologic Maps. The average human lifespan is less than 80 years. Because of this, we tend to think that 80 years is a very long time. In reality, it is merely a fleeting moment. 2

Peter 3:8 says that a thousand years to God is like a day. That is because as an eternal being, time has no meaning.

Free Online Geology Curriculum - Chapter 8, Geologic Time ...

8.6 GEOLOGIC STRUCTURES CREATED BY PLASTIC & BRITTLE DEFORMATION 8.6.1 Folds. Folds are geologic structures created by plastic deformation of Earth's crust. To demonstrate how folds are generated, take a piece of paper and hold it up with a hand on each end. Apply compressional forces (push the ends towards each other).

Overview of Geological Structures Part 2: Folds, Faults ...

First Edition. Chapter 1 "Relative and Absolute Dating" by Bradley Deline, CC BY-SA 4.0. View Source. 6.1 INTRODUCTION. To develop a history of how geologic events have acted on the Earth through time, we need to understand what and when geological processes have occurred through Earth's history.
