## Lubkin's Chronic Illness

By linking people who have chronic diseases or chronic disease risk factors to community resources, CDC can help them improve their quality of life, prevent or slow down the disease, avoid complications, and reduce the need for more health care.

## How We Prevent Chronic Diseases and Promote Health | CDC

Primary and community care are key settings for the effective management of long term conditions. We aimed to evaluate the pattern of health outcomes in chronic disease management interventions for adults with physical health problems implemented in primary or community care settings. The methods were based on
