One problem common with Club Carts is failure to charge, notes Golf Link. Leaving on the lights or accessories of the Club Car could result in the battery draining, leaving the Club Car without power when it comes time to start it. Make sure that the batteries are allowed to charge sufficiently before use.

What Are Some Common Club Car Problems?

Check the terminals, posts and cables for golf cart battery corrosion, loose cables, or frayed cables. All of these can cause your golf cart to stop and start intermittently or to loose all power. My son-in-law's golf cart recently died on him. The batteries were showing a full charge.

Golf Cart Troubleshooting - Electric Golf Cart Repair FAQ

You don ' t have to be a Club Car technician to diagnose the problem with your charger. Plug the DC plug into the wall outlet before you plug it into the Club Car. Connect the Club Car end of the 48 into the receptacle on the Club Car slowly. If you plug it in too fast, you could arc the current and fry your PowerDrive 48.
