Color Psychology as Therapy Several ancient cultures, including the Egyptians and Chinese, practiced chromotherapy, or the use of colors to heal. Chromotherapy is sometimes referred to as light therapy or colorology. Colorology is still used today as a holistic or alternative treatment. 2 In this treatment:

Color Psychology: Does It Affect How You Feel?

In art therapy, color is often associated with a person's emotions. Color may also influence a person's mental or physical state. For example, studies have shown that some people looking at the color red resulted in an increased heart rate, which then led to additional adrenaline being pumped into the blood stream.
