expresses in the most compelling and original terms the postmodern rebellion against the purism of modernism. Three hundred and fifty architectural photographs serve as historical comparisons and illuminate the author's ideas on creating and experiencing architecture.

~~Complexity and Contradiction in Architecture: Robert ...~~

architecture evokes many levels of meaning and combinations of focus: its space and its elements become readable and workable in several ways at once. But an architecture of complexity and contradiction has a special obligation toward the whole: its truth must be in its totality or its implications of totality. It must embody

~~Complexity and Contradiction in Architecture~~

The "dialectical narrative" follows that architecture, as lineage, modernism included (in it's best sense), is complex and contradictory. Finis. The greater point is that this implies many other good things about architecture.

~~Complexity and Contradiction in Architecture by Robert Venturi~~

"I am especially pleased to have had the wit to assert in [my original introduction] the Complexity and Contradiction was 'the most important writing on the making of architecture since Le Corbusier's Vers une Architecture, of 1923.'

Architecture marks a turning point in American architecture and architectural theory. In the early 1980s, Philip Johnson declared, with extravagant insouciance: “ Venturi is the most important architect in the world today.... He revolutionized architecture with Complexity and Contradiction in the 1960s.

Architecture that was wrought by the presence of Modernist buildings, while Venturi implied that Modernist buildings were without meaning, as their puritanical design lacked the irony and complexity that enrich historical architecture.

~~Complexity and Contradiction in Architecture | book by ...~~

Robert Venturi in Complexity and Contradiction in Architecture addresses architecture as the only place where redundant and simple construction, in thinking and in material reality, takes shape. All other art forms indulge and promote complexity in their art form especially in the multiplicity that occurs in poetry, fine art and even mathematics, which build on the multitude of possibilities to creating

reintroduced history into contemporary architectural discourse as well as an appreciation of the formal repertoire of the Classical language of architecture, that was precisely not what Venturi argued for. Rather, he was interested in using the history of architecture – entirely subjectively and guided by his own taste preferences – not as a repository of forms, but of abstract compositional ...

He published his "gentle manifesto", Complexity and Contradiction in Architecture in 1966; in its introduction, Vincent Scully called it "probably the most important writing on the making of architecture since Le Corbusier's Vers Une Architecture of 1923."

~~Robert Venturi – Wikipedia~~

Complexity and Contradiction in Architecture was based in large part on materials Venturi assembled for the lecture course he taught at the University of Pennsylvania from 1961 to 1965, on which he collaborated, in part, with Denise Scott Brown, his future partner and wife.
