Copper Red Glazes Tichane Robert - mallaneka.com

Copper-red glazes. Glazes containing copper which turn red when fired in a reducing atmosphere. The earliest known copper-red glaze occurs on wares made in Shanxi during the Tang dynasty. Jun kilns of the Song dynasty commonly used copper glazes. The sacrificial xianhong of the early Ming dynasty and its Qing dynasty copies, the Qing dynasty jihong (same but of the period), langyaohong, Peach-bloom and the Qing Jun red, which was really a monochrome red of the flambé type are all copper ...

GLOSSARY: Copper-red glazes - Gotheborg.com

Cu red glazes are based on adding Cu into the glaze as an oxide and then exposing it to a reducing firing. If a sample of the glaze is drawn from the kiln at full heat should show at most a light straw color and it may turn red on cooling. The red is produced on cooling by crystals that come out of solution with the glaze.
