Sorry to be unclear - not the user guide, but the actual help files- so that when I hit F1, info on the thing I am doing at the time comes up. I can try to scrape all the pages I guess, but online only help seems like a terrible step backward, so I feel like there must be an actual way to keep it on my hard drive so it doesn't take ten or fifteen minutes to page through the user guide.

Corel publishes a product with NO user guide and then expects you to pay \$50 (US) for one that is now 4 years old. Shame on you Corel. I have been a user of PaintShopPro for many, many years and was hoping to have the same great experience with CorelCAD. Hopefully I will get there, but the journey will be slow without decent reference materials.
