Cosmetic dermatology is the use of products and procedures to improve the appearance of skin flaws caused by medical conditions, sun damage and aging. Common flaws are acne scars, hyperpigmentation, surgical and injury scars, wrinkles, fine lines and sagging skin. Aging skin is the result of cumulative damage caused by the sun, smoking, diet and environmental factors.

Cosmetic Dermatology. Our dermatologists and estheticians understand the importance of skin care health and how it can affect your confidence. Years of exposure to the sun, stress or other elements can add up and cause your skin to prematurely age. Fine lines, sagging skin, brown spots, redness or even the loss of facial contours can sometimes appear almost overnight.
