Data Smart: Using Data Science to Transform Information ...

The smart home market is a place of considerable excitement, dynamism and growth. The global smart home market was valued at around $24.10 billion in 2016 and is expected to reach approximately $53.45 billion in 2022, growing at a CAGR of slightly above

14.5% between 2017 and 2022. There has been a vast explosion of hardware devices over the last two years, bringing the realities of the smart ...

The true value of data in the smart home's future ...
In sum, Data Smart is a well-written and engaging guide to getting new insights from data using familiar tools. The techniques aren't really cutting-edge -- in fact, most have been around for decades -- but to my knowledge this is the first time they've been presented in a way that Excel-slinging business analysts can apply the methods without needing

her own team of operations researchers and data scientists.
