In order to receive information of incoming shipments, Dräxlmaier accepts the VDA 4913 as well as the EDIFACT DESADV format. This document provides the definition of a Despatch Advice Message, based on the EDIFACT DESADV D97.A, to be used in Electronic Data Interchange (EDI) between the Dräxlmaier Group and its Trading Partners.

EDI Implementation Guidelines - Dräxlmaier Group
EDI Implementation for the Book Trade These specifications and guidelines enshrine the consensus decisions reached on implementation issues at BIC's regular Technical Implementation Clinics. They provide overall guidance on the use of the BIC-approved TRADACOMS and EDIFACT messages in the book trade and attempt to define a code of good practice to be adopted by buyers and suppliers implementing EDI in this sector.
