The Wall Street Journal cites unnamed sources in claiming the luxury EV will have an even more luxurious price and will go into production by late 2023.

Report: Cadillac Celestiq Could Cost over \$300,000

Feedback on early designs can help engineers resolve issues before too much is invested in

development and manufacturing. But what about feedback gained through early design testing? Such testing may ...

Test Electronics as Early as Possible

Digi-Key Electronics, which offers the world's largest selection of electronic components in stock for immediate shipment, today introduced the Innovation Hub, an immersive experience that allows ...

Digi-Key Electronics Introduces Immersive Innovation Hub Experience

More sophisticated thermostats have replaced the mercury bead with electronics, but the signaling method remains the same, just a simple contact switch. This makes the thermostat the prime target ...

Raspberry Pi

Wireless car charging will take a small step forward early next year as New York University installs roadway-based magnetic resonance chargers that look like manhole covers. The chargers, weighing ...

Is Wireless EV Charging the Better Way?

More sophisticated thermostats have replaced the mercury bead with electronics, but the signaling method remains the same, just a simple contact switch. This makes the thermostat the prime target ...
