Empower Software Intended use Use the Waters Empower 2

Software for acquiring, processing, reporting, and managing your

chromatographic information. Safety information See the

operator's guides of the instruments or devices associated with this

software product for information on how to safely operate and

maintain them. Waters contact information:

Empower 2 Installation and Configuration Guide

Oracle client software provides Empower 2 software with access to

the Empower database through TCP/IP. System administration

Managing the Empower 2 Enterprise or Workgroup system involves

maintaining all the hardware components, operating system

software, networking software, and application programs that make

up the Empower 2 software.

Empower 2 System Administrator's Guide

Empower 2 software allows the use of Wizards to ensure proper

processing as well as built in restrictions related to the order of

processing data. In order to access the Empower 2 system,

individuals must have a user account. This account will define the

capabilities that user will have on the system.

Empower 2 Software - Waters Corporation

Empower software offers two methods of peak detection and

baseline determination: • ApexTrack integration – Detects a peak at

its apex using the second derivative of the chromatogram. Peak

Where To Download Empower 2 Software Manual For Hplc

detection parameters are independent of baseline location parameters. The baseline of each peak is determined using the Liftoff% and Touchdown % parameters.
