## Mechanical Engineers' Handbook, Volume 1: Materials and ...

The focus is on two main groups of materials: polymeric materials and ceramics and glasses. Compiled from the four-volume Engineered Materials Handbook series, this single-volume desk edition provides basic property data and an outline of fabrication methods for each material. The "General Engineering Tables and Data" section includes a collection of engineering tables and data

ASM International is proud to offer Composites as Volume 21 of the ASM Handbook. The nominal basis for this volume was the Engineered Materials Handbook, Volume 1, published in 1987. However, this new edition is, to a large degree, a brand new volume. New or greatly expanded coverage is provided, in particular, in the Sections on constituent

An attempt has been made to review and analyze the developments made during last few decades in the field of high performance carbon fibers. The focus is primarily on high technology sector, which includes aerospace and nuclear engineering or other areas, where the large scale use of carbon fibers is driven by maximum performance and not by cost factors. We have identified and suggested some ...
