A carport is a

Acces PDF Engineering Drawings

covered structure made from steel or aluminum and built to protect vehicles from the outdoors. Carports are composed of a roof, posts, and beam, and they can be attached to the home or not. Due to the

Acces PDF Engineering

Drawings
Carport

lack of four walls there is less protection for the vehicles but offers ventilation that a garage does not.

Engineering

Drawings Carport

- edugeneral.org

Building a carport is a complex project, but with just a small investment you can protect your car against bad weather.

There are many

Acces PDF Engineering

Drawings you
could choose
from, such as
lean to
constructions or
carports with a
gable roof. In
this article we
show you how to
build a free-
standing
carport, using
common tools and
materials.

Carport plans*

Acces PDF Engineering

are shelters typically designed to protect one or two cars from the elements. They are also used to protect other large, bulky or motorized items that might not fit in a garage or basement.

Acces PDF Engineering

Most carports are open-sided on at least one or two sides, if not all four sides. The purpose of a carport plan is similar to that of a garage.
