The Enlightenment. The Enlightenment was both a movement and a state of mind. The term represents a phase in the intellectual history of Europe, but it also serves to define programs of reform in which influential literati, inspired by a common faith in the possibility of a better world, outlined specific targets for criticism and proposals for action.

Impact of the Scientific Revolution and the Age of Enlightenment During the Renaissance Age from the 1300s until the early 1500s, science was utilized to help people reach a better understanding of God and not of their surrounding world. Science was viewed as a branch of religion and scientific thought was based on faith.
