Examples of eon in a Sentence Recent Examples on the Web Over a year and a half, or a political eon ago, the focal point of our political discourse was a caravan of migrants trekking through Central America and Mexico in the hopes of winning asylum in the United States.

Eon | Definition of Eon by Merriam-Webster

Eon is commonly used in a general way to refer to an indefinitely long period of time. Outside of science, people usually use eon as a way to exaggerate how long something took to happen or how long something lasted. In the context of geology, eon refers to the largest division of geological time.
