attributes of what are considered to be reports and dashboards. Defining reports in Excel

*What Are Dashboards and Reports in Excel? - dummies*

Often, reports are referred to as dashboards just because they included a few charts. Likewise, many dashboards have been called reports. All of this may seem like semantics but it's helpful to clear the Excel air a bit and understand the core attributes of what are considered to be reports and dashboards.

Company based in the update of two combo boxes. Splits the dashboard by reporting metric and group.

*Excel Dashboard Examples and Template Files – Excel ...*

An Excel dashboard is one-pager (mostly, but not always necessary) that helps managers and business leaders in tracking key KPIs or metrics and take a decision based on it. It contains charts/tables/views that are backed by data. A dashboard is often called a report, however, not all reports are dashboards. Here is the difference:
