Industrial robots for smarter automation - FANUC

The new programming guide allows even the most novice robot users to build out a program in as little as 30 minutes. For those who favor the old-school interface, FANUC still gives the option for the original to be used with this pendant as well. Overall, the R-30iB controller is designed for smoother integration and use.

Fanuc Robotics R 30ib

Maintenance Manual

The FANUC R-30iB is a high-performance controller that brings a higher level of productivity to the production floor. It offers hardware and the latest advances in network communications, integrated iRVision, and motion control functions. The iPendant has a touch screen with 4D graphics that displays process information and the actual process path, allowing for a much easier set up.
