This is a Psychology Tools case formulation (case conceptualization) diagram. Put simply, case formulation is one method of a client and therapist coming to shared understanding of a difficulty. The formulation contextualizes the difficulty, making its origin and maintenance understandable. Case formulations are best completed collaboratively, with clients positioned as the ' experts in themselves ' .

### Friendly Formulation - Psychology Tools

Formulation is considered to be the core skill of the profession of clinical psychology, and also appears in the regulatory requirements for counseling, health, and forensic psychologists (Health Professions Council, 2009).
