The strategy that hold up against all, or most, of the scenarios can then be considered to be more future-fit than the rest. This is an incredibly simple process to execute, but what it does do is it ensures that your business strategy is rooted in futures-thinking; that it holds up to possible future outcomes and recognises that business doesn't operate in a contextual vacuum.

Future Fit training programme was very straight forward, but I felt I was missing out by not having any hands-on experience with an actual coach/tutor. A lot of my marks were lower than they could have been due to not fully understanding the subject or item as well as I should, but not having a quick reference point available to verify anything was a drawback.

~~Six practices to help private boards become better future-fit~~

Pick a time of day to hold the gratitude minute. In the elementary setting, it can be part of the class's morning routine. In secondary classes, it may be better to have a weekly gratitude minute. Ask students to stand in a circle and take turns sharing things for which they are grateful. The teacher or a designated student can record the responses.
