Safes Products | FireKing Security Group

The hardest part about changing the battery in a digital safe is finding where it is. But don't worry, it's not inside. The battery compartment is under the keypad, and has a little tiny hole for removal. If you don't have a jeweler's screwdriver that is small enough, you can use a straightened-out paper clip. The battery is a 9 volt. Step 1 Insert the jeweler's screwdriver or paper clip into ...

How to Change the Batteries on a Digital Safe | Hunker

The battery is inside the safe on the 3rd dial. If your battery is weak or dead, you can temporarily open the safe by holding a fresh battery against the terminal posts on the left side of the keypad face. 1. With the safe door OPEN and the bolts on the side of the safe all the way out, press the 0 button six times.
