### Clothes Dryer Not Working Troubleshooting Guide

Remember when testing components or replacing parts in your gas dryer, always be sure the dryer is unplugged and there is no chance of gas leaking by turning off the gas valve. 1 - Faulty Gas Valve Solenoid Coils These open the gas valves and let gas flow into the burner. Check if the igniter is glowing and shuts off but there is no flame.

### 7 Causes Why A Gas Dryer Is Not Heating - How To ...

If you have a gas dryer with the lint filter in the door, access the thermal fuse by opening the bottom panel. If the filter slides into the top of the machine, remove the entire front panel. On an electric dryer, remove the rear service panel. If you don't get a continuity reading from the thermal fuse, do NOT simply replace it.

### Clothes Dryer Repair Guide (DIY) | Family Handyman

Every few months, remove the lint filter and soak it in warm, soapy water to remove any residue left behind by dryer sheets or fabric softener. Lint trap: The chute that houses the lint filter can also get clogged. Clean the lint trap every few months using a dryer lint brush or a vacuum hose. Vent: Dryer vents can also get clogged with lint over time. Clean the vent at least once a year using a dryer vent brush or vacuum hose.
